Mission of the Month: A Rocha is a Christian organisation working in the UK and around the world. It was founded in 1983 by Peter and Miranda Harris. We know a terrifying number of species are becoming extinct on a daily basis. Floods and fires are bringing destruction to personal lives, property and nature across the globe. There are wars caused by scarcity of precious resources as well as a climate emergency and messages of extinction and despair. God has given this earth to us to care for. A Rocha provide practical conservation interventions aimed at contributing to the sustainable management of important ecological habitat and species, contributing to the livelihood enhancement of deprived communities.
